Chemical composition:

High quality sulphated sebum

Properties:

Seroil MSS is a high quality sulphated sebum to be used in vegetal tanned or retanned leathers.

Seroil MSS features:

- Full and good tube
- Excellent grain lubrication
- Good softness and "butter" cut
- Excellent surface feel

Seroil MSS can be mixed with other fatliquors such as **Seroil UMR**, **Seroil MS**, **Seroil PLSN** to improve softness.

Application:

Seroil MSS is easily soluble in hot water.
Emulsion 1:2 /1:4 at 50°C-60°C.

It is recommended to use 2 to 6% based on shaved weight and the leathers previously heated in the drum.

Also can be applied by hand alone or mixed with crude fatliquors.

Note:

This product should be stored at room temperature of 15°C to 30°C.

In cool conditions can get to frozen, so it should warmed the product at 25 ° C and mix to get a homogeneous mixture.
